ROCKY FLATS ENVIRONMENTAL TECHNOLOGY SITE REGULATORY CONTACT RECORD

Date/Time: October 10, 2000/ 9:40 am

Site Contact(s): Carolyn Hicks, B776 Environmental Compliance
Phone: 303-966-5773

Regulatory Contact: James Hindman
Phone: 303-692-3345

Agency: CDPHE

Purpose of Contact: Request for approval of removal of any cage or non-load bearing wall within 776 or 777 that is associated with a RCRA unit (unit boundary or within a unit).

Discussion:

D&D personnel in B776/777 are planning to remove many of the cages and non-load bearing walls within the building. In the past, we have requested permission on a case-by-case basis for removal of walls or cages associated with RCRA units. I requested a one-time approval to remove any remaining cages and non-load bearing walls associated with RCRA units, provided that there is no hazardous or mixed waste contamination.

Mr. Hindman agreed with the request, with the following stipulations:

- (1) The approval does not include removal of any RCRA secondary containment berms at the base of the wall or cage. Prior to removal of RCRA berms we will submit a minor modification to the B776/777 DOP for closure.
 - (2) If wall or cage removals would significantly change the unit diagrams in the RCRA permit, a new drawing should be submitted as a permit modification request. Requirements for unit drawings are currently being discussed as part of the permit streamlining initiative.
 - (3) The facility must be able to maintain control of the permitted waste storage areas after walls or fences are removed.
-
